Subject: Support for PLUS

Hi [REDACTED]

My name is [REDACTED] and I live at [REDACTED] We live just around the corner from the prison.

I have two children with disabilities who attend many events at PLUS. It would be absolutely fabulous if PLUS were to be successful with the asset transfer of the family hub. For them to have a permanent building would secure their services for years to come.

The services they provide are excellent and an absolute lifeline to families of children with disabilities. There is no other provider of such a service in this area. They provide brilliant opportunities for social inclusion for our children and give parents the opportunity for respite.

Without PLUS there would be very little, if anything, in the way of social events for [REDACTED] and [REDACTED]. Their disabilities mean they can't access all the clubs that most children take for granted. Plus gives them very important opportunities for socialising with friends.

I really hope they are successful with the building as it would mean so much to so many families in the area.

Kind Regards

[REDACTED]
