Hello,

I'm writing to say that I've supported the charity "Support for Families" for a while now and the work they do is amazing, to have this type of support in our community is very important. It would be great if they could be blessed with the ownership of the support hub, this would make a massive difference to many families that struggle today and future families that will need help too. I'm messaging to show my support for the charity and i hope they succeed in taking over the ownership of that hall.

Thanks.
