Subject: Support for Families

Hi [REDACTED]

I'm writing to give my support to the Support for Families (S4F) charity organisation in their bid for ownership of the premises at the family hub, Cornton.

S4F for many years have supported children, families & kinship carers who have been affected by drug & alcohol misuse.

They have & continue to provide a fantastic & valuable service to kinship carers & the children involved by offering them support, friendship, various activities, outings & counselling services & so so much more - but most importantly they enable children to be children again.

For S4F to develop their services further & allow them to reach out to more children & families desperately in need of the support S4F offer they need premises suitable to make this development happen & of which is central to the Stirling & Forth Valley area.

S4F have also expressed an interest in expanding its services & the family hub premises to the Cornton community which can be beneficial to so many more people.

I would be grateful if you would consider Support for Families (S4F) a suitable organisation for the family hub, Cornton.

Kind Regards
[REDACTED]
