Plus

Hi, my name is [REDACTED] and Plus management asked me to write a support letter to this email. Our son [REDACTED] has autism and he's got sessions at Plus ,long time ago but roughly a couple of years ago, he really started to enjoy spending his time with Plus great staff, he's having really hard times mentally and Plus is one of the help he really enjoys, and massive part of his routine. So Plus for us is really a plus and especially the building part of his routine too, he's really use to it, would be great to have this opportunity in the future, for Our Child sake, thank you for reading my letter, hope it's a little help to support this Plus team, because what they do and help families it's Amazing.

Kind regards, [REDACTED]
